Media Consent Form - to use copyright material, image, recording, name or personal information

Introduction to the State School Consent Form for Brightwater State School

This letter is to inform you about how we will use your child's personal information and student materials. It outlines:

- what information we record
- how we will use student materials created during your child's enrolment.

Examples of personal information which may be used and disclosed (subject to consent) include part of a person's name, image/photograph, voice/video recording or year level.

Your child's student materials:

- are created by your child whether as an individual or part of a team
- may identify each person who contributed to the creation
- may represent Indigenous knowledge or culture.

Purpose of the consent

It is the school's usual practice to take photographs or record images of students and occasionally to publish limited personal information and student materials for the purpose of celebrating student achievement and promoting the school and more broadly celebrating Queensland education.

To achieve this, the school may use newsletters, its website, traditional media, social media or other new media as listed in the 'Media Sources' section below.

The State School Consent Form may, at your discretion, provide consent for personal information and a licence for the student materials to be published online or in other public forums. It also allows your child's personal information and student materials to be presented in part or alongside other students' achievements.

The school needs to receive consent in writing before it uses or discloses your child's personal information or student materials in a public forum. The attached form is a record of the consent provided.

It should be noted that in some instances the school may be required by the *Education (General Provisions) Act* 2006 or by law to record, use or disclose the student's personal information or materials without consent (e.g. assessment of student materials does not require further consent).

Voluntary

There will not be any negative repercussions for not completing the State School Consent Form or for giving limited consent. All students will continue to receive their education regardless of whether consent is given or not.

Consent may be limited or withdrawn

Consent may be limited or withdrawn at any time by you.

If you wish to limit or withdraw consent please notify the school in writing (by email or letter). The school will confirm the receipt of your request via email if you provide an email address.

If in doubt, the school may treat a notice to limit consent as a comprehensive withdrawal of consent until the limit is clarified to the school's satisfaction.

Due to the nature of the internet and social media (which distributes and copies information), it may not be possible for all copies of information (including images of student materials) once published by consent, to be deleted or restricted from use.

The school may take down content that is under its direct control, however, published information and materials cannot be deleted and the school is under no obligation to communicate changes to consent with other entities/ third parties.

Frequently Asked Questions

Do I have to buy my child a computer? Is this compulsory? No, the purchase of a computer is not compulsory. The teachers at Brightwater State School are keen to use some innovative learning strategies using technology. Children without their own computer will share the school owned computers.

Will my child be participating in eLearning if they don't have a laptop? Yes. eLearning is not about the laptop; it's a change in learning style to a mobile, collaborative and inquiry approach. Children without their own Laptop will still have access to our fleet of school owned Laptops in the same way that they do in Prep – Year 3. These Laptops are shared across a number of classrooms which means students won't have access all the time. Class teachers plan their programs so that their students have access to school Laptops when lessons and learning activities require them. Children also can't take these devices home to continue their work there. They can still access The Learning Place and other online learning environments they utilise at school, at home from family owned devices.

We already have a laptop at home. Can my child use this? Yes. Please see the information regarding Acceptable Devices on our website. Some older models are unsuitable for school use. If in doubt, please contact Office to check. Note that Brightwater school provides tablets for use at the school, therefore BYO refers to laptops
